Join us to hear about:

- *What are the prospects for young talented people on the nature protected area?*
- *What are the key indicators for sustainable development?*
- *What role will our project play in the run up to implementations about skilled youth opportunities in nature protected areas?*

In the period from 26 May to 4 June, the first youth exchange of 37 students is taking place in the framework of the Erasmus+ project titled Never Lose Your Soul. Youths from the Association of the Bird Watching and protection of Slovenia (DOPPS), the Youth Development Center Ruše (CEZAM), students from II. gimnazija Maribor, students from Lake Bunyonyi Secondary school (Uganda) and students from high school Stefan cel Mare, Hirtau (Romania) will present their work on natural protected areas that are demographically devastated and, in spite of their exceptional biotic diversity, they are losing their human development potential. The 1st Youth exchange is closed on Monday, 4th of June. In mid-August, we will go to Uganda, where the research work will continue during the second Youth exchange activities. On Monday, June 4, at 15:00, we will present our work in Trenta and future plans for Uganda. Both, the students and their mentors will be present at the press conference. We kindly invite you to join us.
