Content of press conference

In the period from December 2017 to June 2019, the project titled Never Lose your Soul was taking place in the framework of the Erasmus+ projects. Youths from the Association of the Bird Watching and protection of Slovenia (DOPPS), the Youth Development Center Ruše (CEZAM), students from II. gimnazija Maribor, students from Lake Bunyonyi Secondary school (Uganda) and students from high school Stefan cel Mare, Hirlau (Romania) were dealing with Youth skilled migration in nature protected areas. Youth skilled migration causes a severe loss of labour force and human capital. In a complex and tailored multi-level and transnational cooperation the project gave an opportunity to create local developmental strategies based on indicators developed on the international level. The project promotes cooperation between youth and organisations in the education and training fields as well as with representatives of business and labour market.

On Thursday, 6 June 2019, at 9 a.m., we will present the final results of the project.

These will include:

1. Researches and analysis of demographic trends in three national parks (Slovenia, Romania, Uganda)
2. Interventions, strategies and policies to unlock human development potentials in nature protected areas with the set of international testing Indicators.
3. The Local action plans made by participants of two Youth exchanges and two transnational meetings.
4. An alternative Pedagogical approach: Entrepreneurial Focused Education Based on the Creativity to cover the youth emigration processes in nature protected areas.

Both, the students and their mentors will be present at the press conference. We kindly invite you to join us.
